ECO PRODUCTS®

# Hundreds of SKUs from 8 Leading Sustainable Foodservice Suppliers

## Renewable Resources

These products are made from fast-growing plant resources such as corn, sugarcane and plant starch versus non-renewable resources such as petroleum. Bagasse products are derived from crushed sugarcane stalks; PLA items utilize corn-based resin rather than oil-based plastic.

- Bags
- Bowls and Lids
- Cold Cups and Lids
- Containers and Lids
- Cutlery
- Food Trays
- Hinged Lid Containers
- Hot Cups and Lids
- Plates
- Portion Cups and Lids
- Stir Sticks
- Straws

## Recycled Materials

These items are manufactured utilizing post-consumer recycled content such as paper, fiber and PET plastic, which helps reduce landfill waste. Products are indicated as recyclable when they can be collected or separated by established recycling programs.

- Cold Cups and Lids
- Containers and Lids
- Cutlery
- Hinged Lid Containers
- Hot Cups and Sleeves
- Plates
- Tablecovers

## Compostables

Products identified as compostable are manufactured from renewable resources that will biodegrade and break down to their natural state in a commercial composting facility, resulting in less waste going into landfills.

- Bags
