The Company That Performs

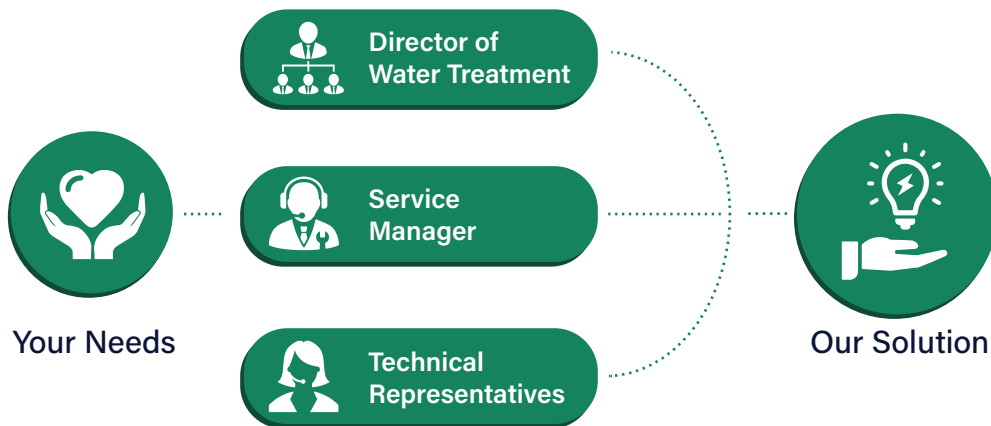

# ***WATER TREATMENT***

***"Innovative water treatment, energy savings,  
and enhanced performance"***

# EXCEPTIONAL SERVICE

With Competitive Choice, Inc. on your side, you gain peace of mind because your water treatment systems will run smoothly with increased efficiency and savings. We customize solutions to fit your needs and stay involved with every detail through the process. Your project will be overseen by industry leaders who have the knowledge and experience to address any issues that arise and solve them before they become problems.

We provide innovative water treatment techniques creating energy savings while enhancing performance. With our customized solutions:

- **Equipment and piping will last longer**
- **Energy costs and water loss will be minimized**
- **Employee safety will be maximized**

We offer a range of specialized chemicals, services, and solutions designed to:

- **Reduce operating costs**
- **Increase plant productivity**
- **Meet environmental requirements**

Plus, we make sure you are always in the loop by providing unmatched access to laboratories.

# SMALL BUSINESS, HUGE GAINS

As a small, woman-owned business, Competitive Choice, Inc. has proved that being small has big benefits. We are big enough to have the skill, dedication, and experience necessary to solve your water issues but small enough to care about your individual needs and stay involved with the smallest details.

With more than 15 years of water treatment experience, we have provided service and support for a broad range of satisfied clients, including the federal government and a host of commercial and industrial facilities throughout the United States.

## **15+ Years of water treatment experience**

In each case, we provided top-notch service and remained attentive to the needs of each customer- as if that client is our one and only customer.

Some of our clients include:

Texas A&M  
University

City of Houston

VA Hospital

## **LEADING THROUGH INNOVATION**

Competitive Choice, Inc. is more than a traditional chemical company. By being our clients' water-treatment partner, we place equal emphasis on service and performance, setting us apart from the competition. Customers consistently praise our:

- Experienced and knowledgeable personnel
- Exceptional technical support
- Excellent performance

With over 15 years of experience in product formulation and technical support, Competitive Choice, Inc. application specialists are unmatched in their inventiveness and thoroughness. Also, we seek to develop improved products that are consistent with standards of the Safety & Environmental Offices. Together, our experts ensure that you get the latest chemical technology with the ultimate energy and equipment efficiencies, while always meeting the industry's ever-changing needs.

**We stay up-to-date:**

- Routinely refine our treatment plans and services
- Meet the changing needs of our diverse customers
- Meet the changing needs of the industry

**Helps save  
you time and money!**

# IMPACT AREAS

## UNMATCHED SITE MAINTENANCE

Competitive Choice, Inc. representatives visit your facilities as often as necessary to ensure the treatment program is being properly applied and superior results are being obtained. During regular service visits, the representative performs the following services:

- Provide "Full Service", including the handling of all chemicals
- Provide 24-hour emergency response
- Maintain and repair all chemical feed equipment, including controllers, pumps, etc.
- Review progress on the current program
- Discuss any operating or water related questions or problems
- Inspect any open systems
- Run tests on all pertinent samples from all treated systems
- Submit a complete written report of all findings and recommendations

## DEVISING A PROGRAM

*We're here to enhance your water treatment program's performance and generate energy savings. With our customized solutions, your equipment and piping will last longer and employee safety will be maximized. We will help reduce operating costs, increase plant productivity, meet environmental requirements, maintain your central cooling and boiler plants, and reduce your energy fuel and water consumption.*

***Give us a call today, so that we can begin to devise the right water treatment program for you tomorrow!***
